

ABOUT US

The Afyonkarahisar Chamber of Commerce and Industry as the voice of SME's in the province of Afyonkarahisar, strives to provide value – added service to it's active members which total in excess of 4.300. Besides providing trade registration and export documentation the Chamber organises networking events for its members, provides quality information seminars and training to source members with qualified staff, promotes members in fairs and expeditions, and most importantly consults members on product and operations standards, SME incentives, credits and grant scheme programmes.

The most leading economic sectors of the province are; the natural stone quarrying, processing and global marketing sector, foods sector including – livestock slaughtering and red meat processing, poultry, confectionary, food oils, flour mills and agriculture – five star health resort tourism sector and the brick production sector.

The province has the capacity to export to all corners of the world. Main export goods are raw and processed natural stone products, conveyor bands, poultry goods, opium poppy products and sweet cherries. In 2007 the total value of exports was more than 258 million dollars as USA is the main trading partner followed by the EU and the Middle East Countries.
